## **About Us**

At Entrop Power & Energy Engineering Consultancy, we leverage decades of experience to deliver innovative, eco-friendly solutions across thermal, hydro, and nuclear power sectors. We are specialized in custom-tailored engineering, we help clients optimize energy systems while ensuring regulatory compliance. From power system design to project management, our solutions meet the highest standards of performance and sustainability. Entrop is your trusted partner in shaping the future of energy.

## Why Choose Us

- ✔ Decades of experience in power and energy engineering solutions.
- ✔ Tailored services focused on efficiency and sustainability.
- ✔ Expertise in navigating complex energy regulations with ease.
- ✔ Proven track record in delivering on-time, high-performance projects.
- ✔ Commitment to innovation without compromising environmental responsibility.

## Our Mission

Our mission is to pioneer the future of energy by offering innovative, reliable, and environmentally responsible solutions.

We aim to empower our clients with the tools and expertise needed to navigate the complexities of today's energy landscape, while driving progress toward a more sustainable and efficient power sector.

Our focus is on delivering value through innovation, integrity, and a commitment to excellence in everything we do.

## Our Core Services

At Entrop Power & Energy Engineering Consultancy, we offer comprehensive services across multiple sectors:

### Thermal & Hydro Power

Expertise in mechanical and electrical systems for optimal efficiency.

### Nuclear Power

Specialized in reactor systems, water systems, and low-pressure piping solutions.

### Energy Efficiency Consulting

Tailored strategies to enhance system performance and reduce energy consumption.

### Project Management

End-to-end management to ensure successful, on-time project execution.

### Regulatory Compliance

Guidance through ever-changing regulations to ensure full compliance and safety.

# Our Expert Team

## **BIMAL CHANDRA MISHRA**

He brings over 30 years of expertise in mechanical engineering, specializing in mechanical systems for EPC projects in Thermal & Hydropower sectors.

## **MD. ASGAR ALI**

A Mechanical Engineering graduate with an M.Tech, has 25 years of experience in Mechanical System Engineering, specializing in EPC projects across Thermal, Gas, and Nuclear power sectors.

## **RAJESHWAR RAO**

He has 34 years of expertise in water systems design, chemical dosing, and boiler cleaning for power plants, including pre-commissioning and operational chemical cleaning of heat exchangers.

## **V.N. GUPTA**

An electrical engineering graduate with 36 years of experience in basic and detailed engineering of electrical system for Thermal Power projects.
